

# Autonomic Nervous System

## Sympathetic Nervous System

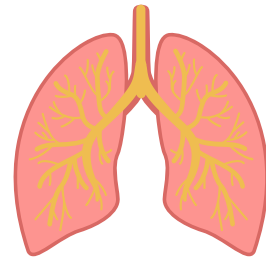

Dilates our pupils and inhibits salivation

Increases our heart rate

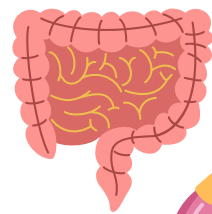

Dilates our airways

Constricts peripheral blood flow

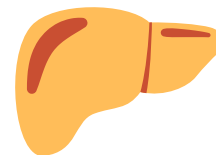

Inhibits intestine activity

Releases adrenaline

Releases glucose

Inhibits digestion

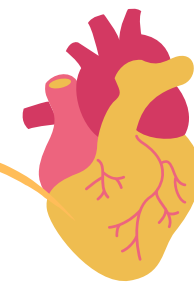

## Parasympathetic Nervous System

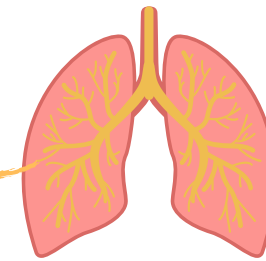

Constricts our pupils and stimulates salivation

Decreases our heart rate

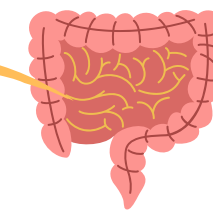

Constricts our airways

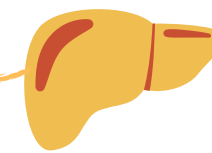

Stimulates peripheral blood flow

Stimulates intestine activity

Stimulates the gallbladder, to aid digestion

Stimulates digestion

Vagus Nerve
